STICK

Conference: Realising the Benefits of our Industrial Collections

STICK's autumn conference is an opportunity to discuss innovative and traditional approaches in demonstrating the potential of our industrial collections. To ask 'what has Industrial Heritage ever done for us?'

Our speakers will discuss what successes they've had and lessons learnt in using artefacts, objects, places or archives to increase knowledge and share enjoyment of industrial heritage. The day will end with a walking tour around Perth's industrial highlights.

Friday 29th September 2017 | Perth
Perth Museum and Art Gallery
£15 (£10 concessions) including lunch

Book via eventbrite
