IS IT THAT BAD?: WHERE ARE WE IN THE CLIMATE CONVERSATION AND WHAT DO WE SEE AS OUR ROLE

Dr Becky Peacock

Museum of Scottish Railways

IS IT THAT BAD?

CONVERSATIONS

- Why do you need to run them?
- You are destroying the environment
- They would be just as interesting in a museum
- Can't you use something else to run them?
- They are dirty
- They are a nuisance
- I can't put my washing out because of your trains
- They are too noisy
- They smell
- You shouldn't be allowed to have that running in the station, its disturbing me

THE REALITY

- Heritage railways use 26,000 tonnes of coal a year
- Total heritage use c.35,000 tonnes
- UK usage is 12 million tonnes
- 0.02% of the UKs entire CO2 emissions in 2018
- 13 million visitors
- 4,000 employees
- 22,000 volunteers
- £400m economic value

WHAT SHOULD WE BE TALKING ABOUT?

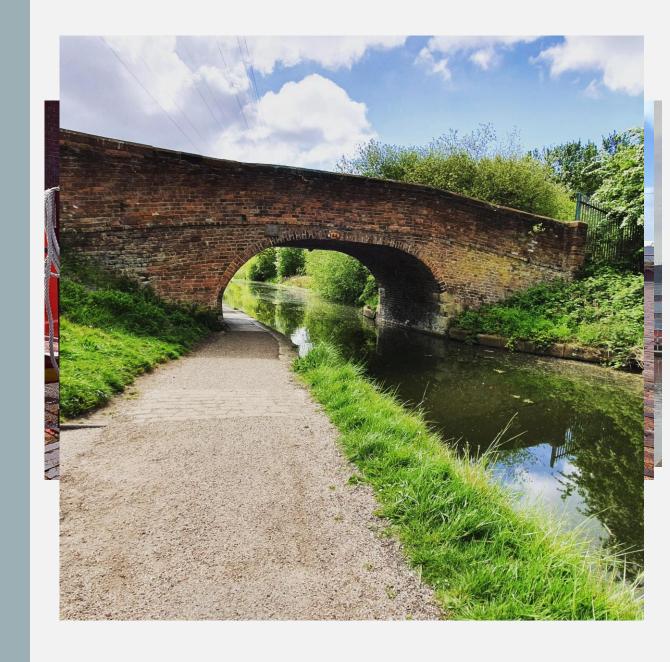

WHAT ARE WE ALREADY DOING?

- Firing and driving techniques
- Improved insulation
- New technologies
 - Biocoal
 - Hydrogen
- Carbon neutral

ENVIRONMENT

BALANCING THE ARGUMENTS
